

**Prevalence of the Heinous, Atrocious, or
Cruel and Cold, Calculated, and
Premeditated Aggravating Circumstances in
Florida Death Sentences**

Commission on Capital Cases
The Florida Legislature
Roger R. Maas, Executive Director

June 30, 2011

Introduction

The Florida Supreme Court (FSC) considers the heinous, atrocious, or cruel (HAC) and cold, calculated, and premeditated, without any pretense of moral or legal justification (CCP) aggravating circumstances “two of the most serious aggravators set out in the statutory sentencing scheme.” *Larkins v. State*, 739 So.2d 90, 95 (Fla.1999).

With its review of each capital murder case on direct appeal, the FSC ensures the death penalty is imposed “for only the most aggravated and least mitigated of first-degree murders.” *Urbin v. State*, 714 So.2d 411, 416 (Fla.1998) and “reviews the record to determine whether the trial court applied the right rule of law for the aggravator, and, if so, whether competent, substantial evidence supports its finding.” *Johnson v. State*, 969 So.2d 938, 957 (Fla.2007).

An additional responsibility of the FSC is the proportionality review, in which the Court conducts a comprehensive analysis to determine “whether the crime falls within the category of both the most aggravated and the least mitigated of murders, thereby assuring uniformity in the application of the sentence.” *Anderson v. State*, 841 So.2d 390, 407-08 (Fla.2003).

The meaning of the individual terms used in each of the HAC and CCP aggravating circumstances are outlined in Chapter 7.11 of the Standard Jury Instructions for Capital Case Penalty Proceedings:

“Heinous” means extremely wicked or shockingly evil.

“Atrocious” means outrageously wicked and vile.

“Cruel” means designed to inflict a high degree of pain with utter indifference to, or even enjoyment of, the suffering of others.

The kind of crime intended to be included as heinous, atrocious, or cruel is one accompanied by additional acts that show that the crime was conscienceless or pitiless and was unnecessarily torturous to the victim.

“Cold” means the murder was the product of calm and cool reflection.

“Calculated” means having a careful plan or prearranged design to commit murder.

A killing is “premeditated” if it occurs after the defendant consciously decides to kill. The decision must be present in the mind at the time of the killing. The law does not fix the exact period of time that must pass between the formation of the premeditated intent to kill and the killing. The period of time must be long enough to allow reflection by the defendant. The premeditated intent to kill must be formed before the killing.

However, in order for this aggravating circumstance to apply, a heightened level of premeditation, demonstrated by a substantial period of reflection, is required.

Analysis

In a comprehensive analysis of current inmates (as of June 30, 2011) on Florida’s death row, the Florida Supreme Court (FSC) direct appeal opinion for each inmate was studied to determine if the HAC and/or the CCP aggravating factors were found by the trial court and upheld by the Court. If the original death sentence was overturned by the FSC in the direct appeal, then the direct appeal opinion after re-sentencing was used. Only issued opinions were included in the analysis, thus, direct appeal opinions were excluded if the sentence was overturned or is pending. Such cases are highlighted in yellow in the Appendix.

If the trial court found the HAC or CCP aggravator, but the FSC determined that there was not sufficient evidence to support the finding or the factor was improperly found, the data for that case will reflect no finding of that factor.

Data analysis yielded the following results:

- 16% (55/334) of the cases had neither HAC or CCP aggravators
- 50% (167/334) of the cases had either HAC or CCP aggravators
- 34% (112/334) of the cases had both HAC and CCP aggravators

APPENDIX

Complete List of Inmates
